ARKIVVERKET

Egenerklæringsskjema for godkjenning av Noark 5-løsning

Egenerklæringsskjemaet skal fylles ut av den som søker Riksarkivaren om godkjenning av en Noark 5-løsning (leverandører, utviklere, organ som har utviklet systemet selv), heretter kalt utfyller.

Det skal søkes om godkjenning for alle typer løsninger som har funksjoner for elektronisk journalføring og arkivering av dokumenter. Eksempler på slike løsninger er generelle journal-, arkiv- og saksbehandlings-systemer (også kalt sakarkivsystemer), fagsystemer og andre spesialiserte system med elektroniske saksdokumenter og system for spesielle dokumenttyper så som kart og tegninger. Det kan dreie seg både om standardløsninger som tilbys i markedet (såkalt hyllevare), og om løsninger som er spesialutviklet for en bestemt bruker (kundespesifikke løsninger). Hvilken type system det søkes godkjenning for, skal angis ved å krysse av for en eller flere av valgmulighetene nedenfor.

Noark 5-standarden skiller mellom tre ulike typer krav: Obligatoriske (O-krav), betinget obligatoriske (B-krav) og valgfrie (V-krav). Det skal angis i kolonnen for oppfyllingsgrad om kravene oppfylles eller ikke. Normalt skal alle O-krav oppfylles. Hvis et obligatorisk krav ikke blir oppfylt, skal dette begrunnes i et eget vedlegg. Når det gjelder B-kravene, er det i fotnoter til skjemaet angitt for hvilke typer systemer kravene er obligatoriske. Nummeret til de B-kravene som ikke oppfylles, skal angis på en egen linje i dette skjemaet. Ytterligere kommentarer til hvorfor bestemte krav ikke oppfylles, gis i vedlegget.

For hyllevareløsninger skal alle deler av skjemaet besvares med Ja eller Nei. Når det gjelder kundespesifikke løsninger, kan det angis i IA (Ikke aktuelt) i kolonne der kravet ikke er relevant.

Utfyller skal også angi hvilke V-krav krav som oppfylles. Er det behov for ytterligere presisering, brukes vedlegget.

Overordnet informasjon om løsningen

Betegnelse/navn på løsningen:	**ACOS WebSak, versjon 8.14**
Kort beskrivelse av løsningen:	Komplett programvareløsning for dokumentfangst, saksbehandling og møtebehandling integrert med arkivkjerne. Løsningen består av forskjellige grensesnitt for ulike brukergrupper i organisasjonen og inneholder en omfattende funksjonalitet.
Navn på leverandør/organ som har utviklet systemet:	**ACOS AS**
Kontaktinformasjon og adresse til leverandør/organ som har utviklet systemet:	**ACOS AS, Trollhaugmyra 15, 5353 Straume**
Opplysningene er utfylt av (navn, tittel, rolle og arbeidssted):	**Per Helge Refvik, Direktør for forretningsområdet Dokumentbehandling, Straume**
Sted og dato:	**04/25/2022**
Signatur:	***Per Helge Refvik***

Type løsning

Kryss av for en eller flere rader, hva som leveres med løsningen

Enkel arkivstruktur (ikke sakarkiv)	
Arkivstruktur med møtemappe og møteregistrering	x
Komplett arkivstruktur (sakarkiv med saksmappe og journalpost)	x
Håndtering av parter	x
Presedens	x
